International Online Short Course

The 7th Exotic Tropical Animal
Nutrition & Feed Technology

Department of Nutrition and Feed
Technology
Faculty of Animal Science
IPB University

Introduction

This is the International Hybrid Short Course Program in Department of Nutrition and Feed Technology. This program is replaced summer course program due to covid-19 pandemic that restricted us to travel and work in the field. The aim of this summer program is to introduce exotic tropical animal nutrition and feeding management based on local wisdom.

The course works and discussion time on some of these subjects will hopefully be an exciting exercise for you. These short courses held by online series through Zoom and MOOC, offline at Mataram, Lombok will give you the opportunity to better understand Indonesia biodiversity.

We believe it will be a good opportunity for you to consider some best knowledge on these important issues of tropical concern.
